## HOW CAN OUI HELP YOU?

### *The F\*ck Cancer Consult*

- Targeted towards **prevention of cancer** or cancer recurrence
- We can personalize the patient's plan for weight loss or **NON-WEIGHT LOSS** dosing
- Microdosing Tirzepatide **reduces insulin hormone spikes** which reduces potentiality for cancer cells to grow or re-grow
- **MULTIPLE QUALITY OF LIFE** benefits and management of co-morbid conditions being seen such as **improvement of inflammation, arthritis, and chronic pain** often related to autoimmune diseases
- **Medical-grade supplementation** with Orthomolecular to optimize the patient's health including the 5 key supplements everyone should be on: Vitamin D, Reacted Magnesium, Probiotic, Fish Oil, and a multivitamin
- Experienced PAs and dietitian on staff.
- Tirzepatide also improves outcomes in **heart failure** as recently noted by the American College of Cardiology, and our PA Rebecca Clawson has over a decade of experience in treating heart disease

### **TL;DR**

Tirzepatide almost immediately improves quality of life and **does not** have to be used for weight loss.

Ongoing trials indicate help with **preventing cancer, optimizing heart failure, & improving chronic pain** associated with autoimmune diseases!

Our **experienced and compassionate** providers can tailor a supplement regimen because **Oui are quality of life specialists!**
